# ABOUT US

HERDEM is an Istanbul-based law firm formed in 2011; it provides the highest quality legal services to its local and international corporate clients. We provide tailor-made legal services to our clients with the aim of contributing to their business objectives. Drawing on the targeted industry knowledge, we help our clients to navigate themselves in their sophisticated legal matters. Our client portfolio includes, but is not limited to, entities in defense & aerospace, life science/pharmaceuticals, tourism & travel, and aviation industries.

Working with us means that you will have a partner “To Respond Together” to all your sophisticated legal problems. Our team consists of dedicated lawyers and counsels that defend the rights of the clients where required: from a contract negotiation meeting to a courtroom, always prioritizing clients’ needs as what a real partner would do.

Our culture always encourages us to bring innovative approaches to the table for our clients. HERDEM tailors contracts, creates business structure, and designs legal documents for clients based on specific industry requirements, clients’ objectives, and legal requirements. This is what we call “Legal Engineering”. Our multilingual Legal Engineers with multidisciplinary backgrounds are ready to apply advanced legal engineering skills for our clients.
